

To Whom It May Concern:

I would like to express our company's satisfaction with the work and professionalism of Isabel Galvis of Awesome Web Marketing. Since we made the decision a few months ago to leave a large agency in order to work with Isabel, we have experienced great success in our ranking in both the natural search areas and the pay-per-click area. With her suggestions and guidance, we have *moved up considerably* in the natural search and have seen our position in the pay-per-click rise while our rates have not significantly increased. This has resulted in far greater traffic to our website and more overall prospective clients contacting us.

While we are obviously pleased with the results, we are most impressed with Isabel's knowledge and professionalism. She is very quick to respond to any inquiries or needs we have and her answers are always well researched and thoughtful. Her willingness to research issues has benefited us greatly by providing our company with critical data to best make key decisions.

We would heartily recommend Isabel to any company looking for SEO and internet marketing consultation.

Sincerely,

Murray S. Goodman
